

Siliflex

Pure silicone, translucent, non toxic, biological neutral hose.

- Flexible, elastic and keeps its shape
- No wastage
- Temperature: -60°C to +220°C, with peaks up to 250°C
- Resistant to repeated sterilization, radiation and chemical reactions
- Hardness: 60 ± 5° ShA
- Density: 1,2
- Resistant to traction up to 9N/mm²
- Maximum stretch: 375%
- Smooth and water-repellent

In compliance with the Pharmacopée Européenne

Temperature range: -60 till 220°C

Applications

Compliant with the positive lists of the FDA and the BGA and with the test for food quality following the EC directives
Resistant to UV and ozone
Labs, pharmacies, medicine
